## ABOUT CHINASTARS

Established in 2003, Chinastars is a Hangzhou based group of companies developing, manufacturing and marketing reflective materials and high visibility products. With decades of experience and focus on quality, value and service, Chinastars has become one of the largest producers of reflective heat transfer material in China. We are engaged in providing global customers with professional, stable-quality and fashionable reflective products.

Our products are certified by accredited, independent third-party laboratories to ensure that our products meet the specified performance criteria imposed by the international standards: OEKO-TEX 100, EN ISO 20471, ANSI/ISEA 107, EN ISO 14116, EN ISO 11612, EN 469, NFPA 701, NFPA 2112, NFPA 1971, ASTM F 1506, CAN/CSA-Z96, AS/NZS 1906.4, ISO 9001 & ISO 14001 certificates.

EN 20471

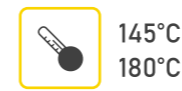

### What makes CHINASTARS the best choice for your reflective products?

- Dedicating to the reflective material development & production since 2003.
- Certified quality by the third-party accredited labs.
- Providing professional supports to comply with the norms.
- Continuous technical innovation by the R&D team and close cooperation with Zhejiang University.
- Strictly implement the assured & traceable quality control system.
- Over 120 million sqm annual output ensures stable supply and fast delivery.
- Self-produced adhesives and strict quality control of raw material to ensure the best quality.
- Experienced international business operation and promised after-sales.

## HIGHLIGHT YOUR BRAND, WITH RAINBOW SPECTRUM

Rainbow reflective heat transfer vinyl is composed of micro glass beads, coating adhesives and hot melt adhesives. It is normally used for graphic designs such as logos, letters or patterns by plotter or laser cutting to get increased brand awareness.

The protection liner can be changed to self-adhesives ones. Sticky liner helps to fasten the logos/letters onto the liner which makes the cutting and weeding process easier.
